On 16 January 2017 the Company provided the following earnings guidance:

NOTES

Note 1: Results Summary

The percentage changes referred to in this section are the percentage changes calculated by comparing the current period's figures with those for the previous corresponding period. Do not show percentage changes if the change is from profit to loss or loss to profit, but still show whether the change was up or down. If changes in accounting policies or procedures have had a material effect on reported figures, do not show either directional or percentage changes in profits. Explain the reason for the omissions in a note to this report.

Note 2: True and fair view

If this report does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the listee must attach a note providing additional information and explanations to give a true and fair view.

Note 3: Comparative figures

Comparative figures are the unadjusted figures from the previous corresponding period. However, if there is a lack of comparability, a note explaining the position should be attached.

Note 4: Additional Information

A listee may disclose additional information about any matter, and must do so if the information is material. The information may be an expansion of the material contained in the **Appendix 15-1**.
